

# AQ180

# LIFEBUOY LIGHT

The AQ180 is a self-activating lifebuoy light conforming to the latest IMO requirements. The light and its 5-year battery are completely sealed providing a robust, corrosion-proof and tamper-proof unit for today's demanding market. The AQ180's unique large dome allows light to be projected over a wider area, which dramatically increases visibility.

### TECHNICAL SPECIFICATION

Activation	Auto
Dimensions	160mm(h) x 80mm(w) x 80mm(d)
Output	2cd
Duration	Min 2hrs
Shelf Life	5 Years

## INSTRUCTIONS

### Fitting & Operation

1. Attach a line from the lifebuoy to the loop connected to the top metal clip of the unit (fig 1).
2. On deployment, the metal clip is released, allowing the unit to fall.
3. Unit automatically begins to flash and float upright (fig 4).

### Testing

1. Pull out the top metal clip of the unit and remove the unit from the holder (fig 2-3).
